american environmentalism philosophy history and public policy

Despite the diversity of the environmental movement, four pillars provided a unifying theme to the broad goals of political ecology: protection of the  
environment, grassroots democracy, social justice, and nonviolence. However, for a small number of environmental groups and individual activists who  
engaged in ecoterrorism, violence was viewed as a justified response to what they considered the violent treatment of nature by some interests, particularly  
the logging and mining industries.
