In a major new biography, veteran military historian and WWII biographer, Charles Whiting combines both talents to tell the tale of barefoot Texan share-cropper's son, who could barely read and write, but became not only the US Army's most decorated soldier in its 250 - year history, but also the star of forty Paramount produced movies: most of which are shown on TV screens around the world to this very day. The gentle-eyed, baby-faced hero had won every decoration the United States had to offer before he was eligible to vote and killed 240 enemy soldiers in the process. Luck made him a movie star. Always he tried to improve himself, but time and time again he was relegated to the 'horse operas', where as he wisecracked cynically, "it was the same old movie, only they changed the colour of the horse." But there was a price to pay for his heroism in drugs, nervous tension and Murphy's addiction to violence. Even as a middle-aged movie star, he always slept with a .45 beneath his pillow, plagued by nightmares of the war. Murphy had been an ordinary boy, who had volunteered to go to fight and did so with exceeding bravery in the last 'good war'. He paid highly for that bravery and sense of duty to a country which had given him nothing save "malnutrition," as

he used to quip. He was that last American Hero, who did as President Kennedy proclaimed, "Don't ask what your country can do for you. Ask what you can do for your country." Even before his young life had really commenced, he had become a legend. But in the end 'Tinseltown' and the 'feather merchants' of Hollywood broke him. As Time magazine commented on his death; "Audie Murphy belonged to an earlier, simpler time, one in which bravery was a cardinal and killing was a virtue... We shall not see his like again."

On February 20, 1962, John Glenn became a national star. That morning at Cape Canaveral, a small-town boy from Ohio took his place atop a rocket and soared into orbit to score a victory in the heavily contested Cold War. The television images were blurry black-and-white phantoms. The cameras shook as the rocket moved, but by the end of the day, one thing was clear: a new hero rode that rocket and became the center of the world's attention for the four hours and fifty-five minutes of his flight. He became celebrated in all corners of the world as not just the first American to orbit the Earth, but as the first space traveler to take the human race with him. From that day forward, Glenn restively wore the hero label. Wherever he went, people knew his name and what he had done. Refusing to let that dramatic day define his life, he went on to become a four-term US senator—and returned to space at the age of seventy-seven. The Last American Hero examines the many layers that formed the man and unravels the reasons for his singular role. He was a creation of the media, in some ways, but he was also a product of the Cold War. Not even Glenn himself seemed to fully understand his celebrity. He was a war hero, a two-time astronaut, a veteran senator, a devoted husband, a father, and much more. At a time when increasingly cynical Americans need heroes, his aura

burns brightly in American memory.

"John Marshall (1755-1835) was a good son, a kind older brother, a loving father and husband, and a dear friend to many. He was a soldier for the Revolutionary Army, a successful lawyer, a congressman, and Secretary of State. Most importantly, he was Chief Justice of the United States. As Chief Justice, John Marshall made the Supreme Court the strong and powerful body it is today."--Back cover.

A brief biography of the man who was the first African American baseball player on a major league team, as well as the first African American elected to the Baseball Hall of Fame.

Traces the baseball legend's initial signing as a teenager with the Boston Red Sox in 1938, his record-setting batting averages that remained unchallenged for more than sixty years, his two-time service as a fighter pilot, and his love-hate relationship with fans and the media. Reprint. 30,000 first printing.

When he was seventeen years old, Audie Murphy falsified his birth records so he could enlist in the Army and help defeat the Nazis. When he was nineteen, he single-handedly turned back the German Army at the Battle of Colmar Pocket by climbing on top of a tank with a machine gun, a moment immortalized in the classic film *To Hell and Back*, starring Audie himself. In the first biography covering his entire life—including his severe PTSD and his tragic death at age 45—the unusual story of Audie Murphy, the most decorated hero of WWII, is brought to life for a new generation.

The complex story of a living legend: Jim Brown was an astonishing physical specimen with tremendous skills and intelligence. An athlete who played a number of sports at Syracuse University, he discovered that it was the violence of football that appealed
