Book#3: Survival Guide: TOP Secrets Of Finding Edible Wild Plants And Mushrooms There was a time in the not so long ago geologic past, when human beings would scour the globe to hunt and gather all they needed from the environment. There were no super markets, there was no McDonalds, and no vending machines for our foraging ancestors to depend on, all they had were their own wits and will to ferret out their nutrition right out of the wild growths of the Earth. And now more than ever it has become in vogue to make a return to our ancient roots and learn to gather sustenance in this manner once again. Whether it is for the sake of those following health regimens such as the Paleo Diet, or those following retro lifestyles such as the urban homesteader, or for survivalists and outdoor enthusiasts who would like to be able to eke out an existence off the land, now more than ever folks are wanting to learn how to forage for their food for themselves.
