strips away all the "fluff" and confusion that you encounter with most expensive sales training courses. The simple 12 step system provides a "nuts and bolts" approach to selling. It allows you to enter every sales situation with a purpose for closing the sale and gets you away from the deadly "sales visit" dilemma that most business owners and sales professionals fall into. In a just a few hours, you can literally gather the information that system introduces you to and make the most powerful sales presentation your company has ever encountered. When this system becomes part of your selling culture, it will provide you with improved sales, greater margins, and eliminate the competition. Author, Buzz Glover, after quietly reviewing and critiquing the sales people that called on him in his own businesses for over 15 years, became disillusioned with the fact that the great majority of salespeople were ill-prepared to sell their products or services. He knew that if he could introduce them to a system that he had developed and refined as a salesperson (and later as a sales manager), they could easily become much more effective at closing more sales faster! The system became a reality when he wrote this book as a companion to his system's website, [www.goodbyesellingproblems.com](http://www.goodbyesellingproblems.com). Through this sales system he is confident that he can change the way small businesses sell and make fundamental cultural changes in their approach to marketing their products and services.

- 1) Choosing the wrong product. Many affiliates will just make the mistake of promoting a product that they have no experience selling. It is important that the product that you promote should be something that you are interested in and have used it before.
- 2) Picking a product solely because of its popularity. This is one of the worst mistakes that new affiliates can make. They will tend to promote the product that the marketer is selling because of the high amount of commissions that they are earning. You should promote a product that is sellable and you are comfortable selling.
- 3) Picking a product in a niche where the competition is too stiff. Niches are important but if you cannot understand the market then how do you expect to sell the product? The answer is to choose a niche that is not too competitive.
- 4) Not knowing how to promote the product. This is the most common mistake that new affiliates will make. They will tend to rely on the sales letter that is located on the merchant site. Unfortunately, sales letters are not very effective ones. The best promotion that you can get is to write your own unique articles targeted towards the product that you are promoting.
