A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. *The Center Cannot Hold* is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

Over the past forty years, congregations, businesses, other organizations, and communities across the United States have become increasingly divided along political and ideological lines. In *When the Center Does Not Hold*, David R. Brubaker, with contributions by colleagues Everett Brubaker, Carolyn Yoder, and Teresa J. Haase, offers relevant, practical mentorship on navigating polarized environments. Through easily accessible stories, they provide tools and processes that will equip leaders to both manage themselves and effectively lead others in highly polarized and anxious systems. Coaching includes guidance on key characteristics of effective leadership in times of polarization: refusing contempt, honoring dignity, broadening binaries, seeking first to understand, inviting disagreement, and staying connected. With years of combined experience in the fields of conflict transformation and organizational and leadership studies, Brubaker and his colleagues offer hope. Here, readers learn from leaders and communities that continue to renew the covenants that bind them, courageously address deeper needs that drive conflict, and hold on to a moral center while navigating the storms of polarization.

"I've met students whose parents pressured them to major in business or biology or to enroll in pre-law courses, but I can't remember ever meeting students whose parents insisted that they become philosophy majors. Certainly, nobody ever went into this field motivated by greed, unless he or she was laboring under a serious misapprehension. Plato may have gone into philosophy impelled by a frustrated lust for power, but few make that mistake anymore"--

In this collection, white women philosophers engage boldly in critical acts of exploring ways of naming and disrupting whiteness in terms of how it has defined the conceptual field of philosophy. Focuses on the whiteness of the epistemic and value-laden norms within philosophy itself, the text dares to identify the proverbial elephant in the room known as white supremacy and how that supremacy functions as the measure of reason, knowledge, and philosophical intelligibility.
