Open Source Intelligence Osint About

OSINT is a term that refers to a framework of processes, tools, and techniques for collecting data passively from open or publicly available resources (not to be confused with open-source software). Open source intelligence historically referred to open source information gathering via conventional channels such as newspapers, radio, TV, etc. Nowadays, to extract specific intelligence, we use:

About Osint
Open source intelligence, or OSINT, is the collection and analysis of information that is gathered from public or open sources. OSINT is the foundation of Intelligence Fusion's collection process. Our 24/7 operations team follow military intelligence principles to gather, evaluate and disseminate information to our clients, which means we place emphasis on accurate and actionable intelligence.

that is gathered from public, or open, sources. OSINT is primarily used in national security , law enforcement , and business intelligence functions and is of value to analysts who use non-sensitive intelligence in answering classified , unclassified , or proprietary intelligence requirements across the previous intelligence disciplines.
