Design (UbD) reflects the convergence of two interdependent ideas: (1) research on learning and cognition that highlights the centrality of teaching and assessing for understanding, and (2) a helpful and time-honored process for curriculum writing (Wiggins & McTighe, 2005). UbD is based on eight key tenets:

Module A. The Big Ideas of UbD - ASCD
PhD in Education. Specific Entry
Requirements: A research proposal
outlining the scope of work by independent
research should be submitted. The proposal
should include, but not be confined to:
Introduction to the research topic; Research
aims and objectives, including any working
hypotheses if applicable; Literature review;
Methodology, including any data
requirements; Resource requirements ...

Understanding by Design, or UbD, is an educational planning approach. UbD is an example of backward design, the practice of looking at the outcomes in order to design curriculum units, performance assessments, and classroom instruction. UbD focuses on teaching to achieve understanding. It is advocated by Jay McTighe and Grant Wiggins in their *Understanding by Design*, published by the Association for Supervision and Curriculum Development. Understanding by Design and UbD are registered trademarks
