In a distant region of the galaxy, Picard and his treacherous Romulan allies discover the source of the subspace crisis, a huge alien mechanism suspended between a black hole and a nearby inhabited planet, and Picard finds himself confronted with a difficult choice sacrificing a world and saving the rest of the universe from the device's cataclysmic impact. Original.

The 6th International Conference on Medical Imaging and Computer-Assisted Intervention, MICCAI 2003, was held in Montreal, Quebec, Canada at the Fairmont Queen Elizabeth Hotel during November 15–18, 2003. This was the first time the conference had been held in Canada. The proposal to host MICCAI 2003 originated from discussions within the Ontario Consortium for Image-guided Therapy and Surgery, a multi-institutional research consortium that was supported by the Government of Ontario through the Ontario Ministry of Enterprise, Opportunity and Innovation. The objective of the conference was to offer clinicians and scientists a forum within which to exchange ideas in this exciting and rapidly growing field. MICCAI 2003 encompassed the state of the art in computer-assisted interventions, medical robotics, and medical-image processing, attracting experts from numerous multidisciplinary professions that included clinicians and surgeons, computer scientists, medical physicists, and mechanical, electrical and biomedical engineers. The quality and quantity of submitted papers were most impressive. For MICCAI 2003 we received a record 499 full submissions and 100 short communications. All full submissions, of 8 pages each, were reviewed by up to 5 reviewers, and the 2-page contributions were assessed by a small subcommittee of the Scientific Review Committee. All reviews were then considered by the MICCAI 2003 Program Committee, resulting in the acceptance of 206 full papers and 25 short communications. The normal mode of presentation at MICCAI 2003 was as a poster; in addition, 49 papers were chosen for oral presentation.

San Diego Magazine gives readers the insider information they need to experience San Diego—from the best places to dine and travel to the politics and people that shape the region. This is the magazine for San Diegans with a need to know.
