Writing across the curriculum is a movement within contemporary composition studies that concerns itself with writing in classes outside of composition, literature, and other English courses. According to a comprehensive survey performed in 2006–2007, approximately half of American institutes of higher learning have something that can be identified as a WAC program. In 2010, Thaiss and Porter defined WAC as "a program or initiative used to 'assist teachers across disciplines in using ...

Writing Across the Curriculum is a movement that began in the 1970s and is gaining a lot of attention these days. It is designed to boost children's critical thinking skills by requiring them to write in all of their classes—from math to social studies to science—and not just in language arts. And it's a perfect fit for Common Core.
